

# **OCTOBER QUESTION BANK**

## Computer – 1st.Sec

First Term 2023 - 2024

إعداد وتصميم/فريق أصدقاء الكمبيوتر – أ/ياسمين شعيب

## Questions

### 

1. From search engines www.Facebook.com	(	)
2. Encyclopedias are considered a distinguished reference because	(	)
they depend on presenting information in more than one form, such as		
articles, tables, pictures, figures, and maps.		
3. To delete a folderfolder Activate the folder, then from its shortcut	(	)
menu chooseDelete		
4. Encyclopedias are arranged in ascending or descending	(	)
5. Encyclopedias can be arranged according to alphabetical letters or	(	)
according to topics		
6. Column titles are numbers ) Ι, Γ, ۳,,,, ( and these numbers are used to	(	)
designate the location of each row		
7. Row titles consist of alphabetical letters (A, B, C,) and these letters	(	)
are used to designate the location of each column.		
8. Electronic encyclopedias are considered one of the search engines on	(	)
the Internet.		
9. Data of the type images, sounds, or video can be entered into the cells	(	)
of the spreadsheet in Excel		
10. One file is composed From a group of files and folders	(	)
11. column within adatabase represents a singlerecord	(	)
12. One row represents a record within the database	(	)
13. The data necessary to solve any problem can be obtained through	(	)
one stage Define inputs		
14 Program documentation is the last step in solving the problem	(	)

15. The "testing and debugging the program" phase in the problem-	(	)
solving method means writing the program (coding) in a computer		
. language		
16. problem definition is determined in the problem-solving method	(	)
after		
. developing a solution plan		
17. Data for a specific project is collected after the completion of	(	)
creating this project.		
18. Google Chrome is one of the search engines Search Engines in the	(	)
Internet		
19. It is preferable to name folders with names appropriate to the files	(	)
and folders contained within them		
20.www.google.com is a search engine for information on	(	)
the Internet		
21. Encyclopedias are considered a distinct type of reference that	(	)
provides the most important information and facts Related to various		
human knowledge or part of it.		
22. Spreadsheet software can be used to create a database	(	)
23. Table is an electronic spreadsheet program consists of a set of rows	(	)

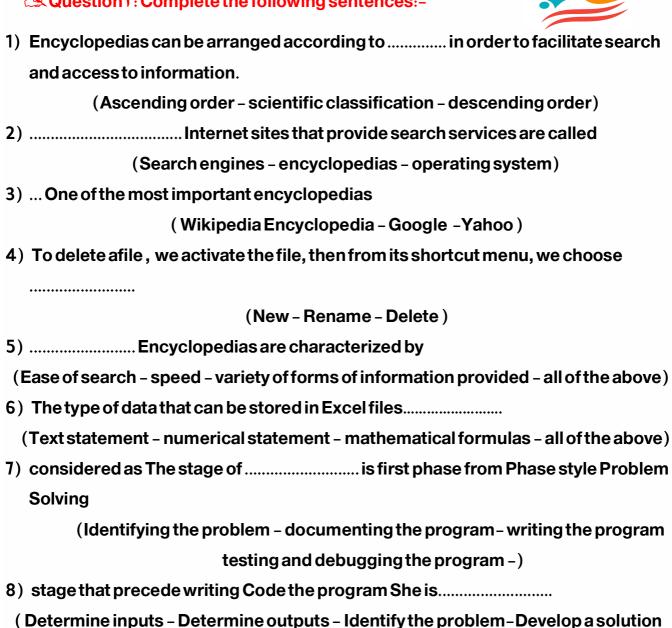

( )

and columns

. and considered as a database file

24. The workbook can be saved in an electronic spreadsheet program

#### Question 1: Complete the following sentences:-

- 9) Converting the steps of the problem solving plan into an application using a programming language is called the ..... stage.
  - (Determining inputs writing the program on the computer documenting the programs or project - Develop a solution plan)

plan)

10) maybe that It contains Vol One(Folder) on...... (several Files - several Folders - folders Empty - all what Previously mention it)

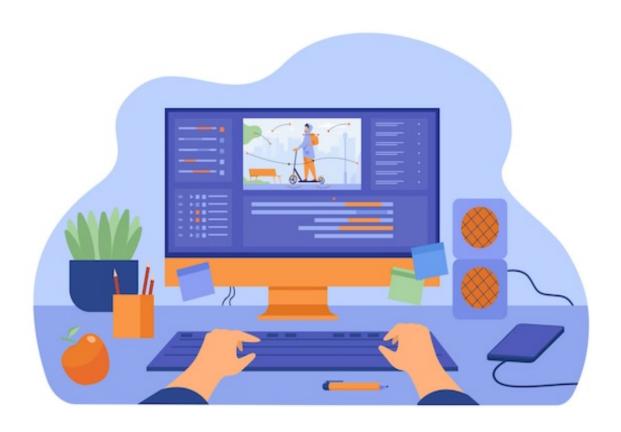

11) considered as Sites Internet The following from Engines Search (Search Engine)
except Location
( <u>www.twitter.com</u> )
( <u>www.google.com</u> )
(www.yahoo.com)
(www.Altavista.com)
12) Is characterized by Encyclopedias e With
a) Speed and ease of searching for information within it
b) The diversity and magnitude of forms of information.
c) How little information is contained within it
d) Both A and B
13) data required For the project Be from Type
a) (Texts)
b) Pictures_
c) Voices or music or Screenshots Video (Sounds, Music or Video Clips).
d) all what Previously Remind him.
**********

### Question 3: Write the meaning of the following:-

- 1- Defining the problem
- 2- Defining the outputs
- 3- Writing the program
- $\hbox{\bf 4-Establishing the steps for the solution}$

# **Model Answer**

## Question 1: Put $(\sqrt{})$ Or (X):

1. From search engines www.Facebook.com	(X)
2. Encyclopedias are considered a distinguished reference because	(√)
they depend on presenting information in more than one form,	
such as articles, tables, pictures, figures, and maps.	
3. To delete a folderfolder Activate the folder, then from its shortcut	(√)
menu chooseDelete	
4. Encyclopedias are arranged in ascending or descending	(X)
5. Encyclopedias can be arranged according to alphabetical letters	(√)
or according to topics	
6. Column titles are numbers ) Ι, Γ, ۳,,,, ( and these numbers are used	(X)
to designate the location of each row	
7. Row titles consist of alphabetical letters (A, B, C,) and these	(X)
letters are used to designate the location of each column.	
8. Electronic encyclopedias are considered one of the search	(X)
engines on the Internet.	
9. Data of the type images, sounds, or video can be entered into the	(√)
cells of the spreadsheet in Excel	
10. One file is composed From a group of files and folders	(X)
11. column within adatabase represents a singlerecord	(X)
12. One row represents a record within the database	(√)
13. The data necessary to solve any problem can be obtained through	(√)
one stage Define inputs	
14. Program documentation is the last step in solving the	(√)
.problem	
15. The "testing and debugging the program" phase in the problem-	(X)
solvingmethodmeanswritingtheprogram (coding)inacomputer	
. language	

16. problem definition is determined in the problem-solving method (X) after . developing a solution plan 17. Data for a specific project is collected after the completion of (X) creating this project. 18. Google Chrome is one of the search engines Search Engines in the (X) Internet 19. It is preferable to name folders with names appropriate to the files  $(\sqrt{})$ and folders contained within them 20. www.google.com is a search engine for information on  $(\sqrt{})$ the Internet 21. Encyclopedias are considered a distinct type of reference that  $(\sqrt{})$ provides the most important information and facts Related to various human knowledge or part of it.  $(\sqrt{})$ 22. Spreadsheet software can be used to create a database **23**.  $(\sqrt{})$ Table is an electronic spreadsheet program consists of a set of rows and columns 24.  $(\sqrt{})$ The workbook can be saved in an electronic spreadsheet

. program and considered as a database file

### Question 7: Complete the following sentences:-

1) Encyclopedias can be arranged according toin order to facilitate search
and access to information.
(Ascending order - scientific classification - descending order)
2)Internet sites that provide search services are called
(Search engines - encyclopedias - operating system)
3) One of the most important encyclopedias
(Wikipedia Encyclopedia - Google - Yahoo)
4) To delete afile, we activate the file, then from its shortcut menu, we choose
•••••
(New - Rename - Delete)
5) Encyclopedias are characterized by
(Ease of search – speed – variety of forms of information provided – all of the above)
6) The type of data that can be stored in Excel files
(Text statement - numerical statement - mathematical formulas - all of the above)
7) considered as The stage of is first phase from Phase style Problem
Solving
(Identifying the problem - documenting the program - writing the program
testing and debugging the program -)
8) stage that precede writing Code the program She is
$(\ Determine\ inputs\ -\ Determine\ outputs\ -\ Identify\ the\ problem\ -\ Develop\ a\ solution$
plan)
9) Converting the steps of the problem solving plan into an application using a
programming language is called the stage.
(Determining inputs - writing the program on the computer - documenting the
programs or project - Develop a solution plan)
10) maybe that It contains Vol One(Folder) on
(several Files - several Folders - folders Empty - all what Previously mention it)

////

11) considered as Sites Internet The follow	${f ving}$ from Engines ${f Search}({f Search}$ Engine)
except Location	

(<u>www.twitter.com</u>)

(www.google.com)

(www.yahoo.com)

(www.Altavista.com)

- 12) Is characterized by Encyclopedias e With.....
  - e) Speed and ease of searching for information within it
  - f) The diversity and magnitude of forms of information.
  - g) How little information is contained within it
  - h) Both A and B
  - 13) data required For the project Be from Type......
  - e) (Texts)
  - f) Pictures
  - g) Voices or music or Screenshots Video (Sounds, Music or Video Clips).
  - h) all what Previously Remind him.

#### Question 3: Write the meaning of the following:-

- 1- Defining the problem: the required outputs and inputs available in general are determined
- 2 Defining the outputs: Knowing the information required to be obtained after solving the problem
- 3 Writing the program: are converted into an application that is written in one of the languages Programming
- 4 Establishing the steps for the solution: A series of successive steps is developed, which is called the Algorithm, and through it, the Solution steps in several ways, including flowcharts

# **Model Exams**

### **Model One**

### Question 1: Put $(\sqrt{})$ Or (X):

1. From search engineswww.Facebook.com	()
2. It is preferable to name folders with names appropriate to the files	()
. and folders contained within them	
3. www.google.com is a search engine for information on	()
. the Internet	
4. Encyclopedias are arranged in ascending or descending order	()
5. Encyclopedias can be arranged according to alphabetical letters	()
or according to topics	
Question Γ: Complete the following sentences:-	
1) Encyclopedias can be arranged according toin order to faci	litate
.search and access to information	
(Ascending order - scientific classification - descending order	er)
2)Internet sites that provide search services are called	d
.(Search engines - encyclopedias - operating system)	
3) One of the most important encyclopedias	
- Wikipedia Encyclopedia )Google - Yahoo.(	
4) To delete afile, we activate the file, then from its shortcut menu, we	choose
•••••	
)New - Rename - Delete (	
5)Encyclopedias are characterized by	
Ease of search – speed – variety of forms of information provided – a	llofthe)
.(above	

### **Model Two**

### 

1)	Encyclopedias are considered a distinguished reference	()
	because they depend on presenting information in more than one	
	.form, such as articles, tables, pictures, figures, and maps	
2)	To delete a folderfolder Activate the folder, then from its shortcut	()
	menu chooseDelete	
3)	Data of the type images, sounds, or video can be entered into the	()
	cells of the spreadsheet	
	. in Excel	
4)	. One file is composed From a group of files and folders	()
5)	It is preferable to name folders with names appropriate to the files	()
	. and folders contained within them	
Que	estion <b>\( \Gamma_{:} \)</b> Complete the following sentences:-	
1)	The type of data that can be stored in Excel files	
	Text statement - numerical statement - mathematical formulas - all of	ofthe)
	( above	
2)	considered as The stage ofis first phase from Phase st	yle
	Problem Solving Problem Solving	
	Identifying the problem - documenting the program )- writing the pr	ogram
	testing and debugging the program -)	
3)	To delete afile, we activate the file, then from its shortcut menu, we c	hoose
	•••••	
	)New - Rename - Delete (	
4)	Encyclopedias are characterized by	
	Ease of search – speed – variety of forms of information provided – all	ofthe)
	.(above	
5)	Internet sites that provide search services are cal	led
	(Search engines - encyclopedias - operating system)	

### **Model Three**

### 

1) ) The row titles are alphabetical letters A, B, C, and these letters (	()
. are used to designate the location of each column	
2) Electronic encyclopedias are considered one of the search	()
engineson the Internet.	
3) Data of the type images, sounds, or video can be entered into the	()
cells of the spreadsheet	
. in Excel	
4) . One file is composed From a group of files and folders	()
5) column within adatabase represents a singlerecord	()
<b>Question </b> √: Complete the following sentences:-	
1) Converting (the steps of the problem solving plan) into an application	on using
.a programming language is called thestage	
Determining inputs – writing the program on the computer – docun	nenting
the programs or project Develop a solution plan -	
2) maybe that It contains Vol One(Folder) on	
several Files – several Folders – folders Empty – all what Previous	usly)
(mention it	
3) Encyclopedias can be arranged according toin order to fac	ilitate
.search and access to information	
(Ascending order - scientific classification - descending ord	ler)
4)Internet sites that provide search services are c	alled
.(Search engines – encyclopedias – operating system)	
5) One of the most important encyclopedias	
- Wikipedia Encyclopedia) Google - Yahoo.(	

### **Model One**

	Question Γ: Complete the following sentences:-
(X)	Scientific classification
(√)	search engines
(√)	Wikipedia encyclopedia
(X)	Delete
(√)	all of the above

### **Model Two**

$1 / 2 $ Ouestion i. Put $(\sqrt{1})$ Or $(X)$ .	≥ Question <b>\(\Gamma\)</b> : Complete the
	following sentences:-
(√)	all of the above
(√)	Defining the problem
(√)	Delete
(X)	all of the above
(√)	search engines

### **Model Three**

	<b>Section Γ: Complete the</b> following sentences:-
(X)	Writing the program on the
	computer
(X)	Previously the above
(X)	Scientific classification
(√)	search engines
(X)	encyclopedia
